**Sub : Appreciation letter for Smartclass.**

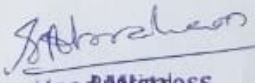

Dear Sir / Madame,

I take pleasure in issuing this letter of appreciation, having been impressed with the content and the implementation of smartclass in our school. While the teachers find the modules a great teaching aid, students find them highly informative and interesting. Teachers can control the students in good manner and easily. Students can concentrate on their lessons when using the smartclass. Students understand the lessons including slow learners. I have the officials off Ebix Smartclass educational services Pvt. Ltd .highly co – operative well informed and ever willing to help.

The concept of smartclass coordinator is highly useful as she is available not only to help the teacher, but also to guide them. She is co – operative and prompt in her duties.

In smartclass, new content has been added. The content covered all portion without omission.

In conclusion I am very happy with the concept of smartclass and the manner in which it is implemented in our school.
