431, Udyogvihar, Phase III,
Gurgaon, Haryana - 122001.

Dear Sir/Madam,

Smartclass is very useful for our teachers to explain and elaborate the contents to our students. It saves our teachers time to over think, how to make our slow learner students to understand the subject. Teachers can gain more knowledge about the subject from Ebixsmartclass. We can able to evaluate our students how much they understood that particular subject.

Here in this smartclass, we have animations, activity videos, diagram makers, worksheets, Graphic organizers and so many other sources to make our teaching more effective, Students become an active learners when they are learning through this smartclass. There is an option called crocodile chemistry, physics and mathematics, it is more helpful for the teachers each and do practicals in our smartclass. It gives a realistic view as we are doing the experiment inside our lab. Overall this smartclass brings more effective in students learning.

Thanks and Regards,

E. S. Sathya Suresh
